**Remarks**

5 Applicant appreciates the efforts of Examiner in dealing with an application that was drafted by an inventor, not a professional patent drafter. Despite that, the invention appears to have true merit, and currently is attracting the interest of the United States Army.

10 Every effort has been made to constructively amend each area of the claims and specification in accordance with all of the examiner's observations in the above-referenced Office Action. Accordingly, applicant respectfully requests a timely Allowance in this case.

15 Attention is drawn to the Power of Attorney that Applicant executed in favor of the Agent responding. Said Power of Attorney was transmitted via RightFax to the USPTO earlier today.

Respectfully Submitted,

20
